Conversion Interface
Ostrich DI 22、DU 22、DO 22

· Compact design, easy to use, support hot swap;

· Easy and free conversion between analog audio signal and DanteTM digital audio signal;

· Built-in 2-way input or 2-way output audio;

· Expand audio, control, Ethernet, and power through one affordable cable.

· Use a network cable instead of a variety of analog or multi-core cables, cost-effective and widely used;

· Extended uncompressed high quality audio signal with near zero delay;

· Safe and reliable transmission of high quality 2-channel audio;

· Perfect support for Dante software, easy to expand and reconfigure network and audio routing with just a few mouse clicks.

	DO22	DI22	DU22
The Connector	RJ45 and XLR-1M; RJ45 and XLR-2M	RJ45 and 1 XLR-F; RJ45 and XLR-2F	RJ45 and USB
Power Supply	PoE		USB
Frequency Response	20 - 20 kHz，± 0.5dB		/
THD + N	< 0.01%@4 dBu		/
Dynamic Range	> 100 dB		/
SNR(Signal to NoiseRatio)	> 100 dB		/
Floor Noise	-90dBu		/
