

4 Channel Bluetooth Transmission Panel

Ostrich BD44

1. Audio transmission and the power supply of this equipment through a network cable to solve, support Bluetooth wireless audio interface and analog audio interface, simple application, the main applicable scenarios are teleconferencing, audio long-distance transmission and other application scenarios.
2. Power supply and transmission in one, using PoE network switch power supply, power supply and audio transmission through the network cable.
3. Good compatibility, adaptable to a variety of cell phones, tablets, computers and other devices.
4. Support Bluetooth call bridging function for conference purposes.

Input Interface	Dante *4, Bluetooth 5.0, Stereo, RCA*2, 3.5mm TRS*1		
Output Interface	Dante *4, Bluetooth 5.0, Stereo, 3.5mm TRS*1		
Power Consumption	2W	Operating Temperature	-10°C - 40°C
Frequency Response	20Hz-20kHz	Operating Humidity	5-95%
THD-N	<0.005%	Dimension(LxWxH)	123.5mm×109.1mm×30mm
Signal-to-noise ratio	>100dB	Weight	310g
Background noise	-90dB
